By Burnham Terry Phelan Jay
Authors: Terry Burnham and Jay Phelan Perseus Publishing June, 2000. The authors are a couple of youthful professors: Burnham, an economics professor at Harvard's Kennedy School of Government, and Phelan, a professor of biology at UCLA. The book is endorsed by the celebrated sociologist, E.O. Wilson.

Mean Genes, by Terry Burnham and Jay Phelan

In Mean Genes Terry Burnham and Jay Phelan argue that we need to stop looking to Sigmund Freud for answers and start looking to Charles Darwin. Mean Genes reveals that our struggles for self-improvement are, in fact, battles against our own genes-genes that helped our distant ancestors flourish, but are selfish and out of place in the modern world.

Mean Genes: From Sex to Money to Food: Taming Our Primal ...

In Mean Genes economist Terry Burnham and biologist Jay Phelan offer advice on how to conquer our own worst enemy- our survival-minded genes. Having evolved in a time of scarcity, when our ancestors struggled to survive in the wild, our genes are poorly adapted to the convenience of modern society.
