Dewey decimal classification 22nd and beyond: A study of ...

Library classification systems, such as the DDC, impose great obstacles on state-of-art text categorization (TC) technologies, including deep hierarchy, data sparseness, and skewed distribution. We first analyze statistically the document and category distributions over the DDC, and discuss the obstacles imposed by bibliographic corpora and library classification schemes on TC technology.

An extensive study on automated Dewey Decimal Classification

The Dewey Decimal Classification (DDC), colloquially the Dewey Decimal System, is a proprietary library classification system first published in the United States by Melvil Dewey in 1876.

Originally described in a four-page pamphlet, it has been expanded to multiple volumes and revised through 23
