Pilot's Training Guide - Garmin

The G1000 will ask if you want feet in msl or agl. Choose 1,000 AGL if you don't know pattern altitude, and the G1000 will level you at 1,000 feet above the airport. The G1000 will alert you when you should start down and, assuming you are within five minutes of the Top of Descent point, the autopilot will start a descent and provide a glideslope-like indicator on the PFD.

I don't have a copy of the POH for the G1000 C172, but I do have a copy of the G36 Bonanza that has a G1000 system. In the Limitations section of my POH, there is a General section. Item 1. in that section reads: "Garmin G1000 Cockpit Reference Guide for the Beechcraft Bonanza A36/G36, must be immediately available to the flight crew".
