Good Medical Practice General Medical

Good medical practice describes what it means to be a good doctor. It says that as a good doctor you will: make the care of your patient your first concern ; be competent and keep your professional knowledge and skills up to date; take prompt action if you think patient safety is being compromised

Good medical practice - GMC

Good medical practice also involves practising in a way that is culturally safe and respectful; being aware of your own culture and beliefs and respectful of the beliefs and cultures of others, and recognising that these cultural differences may impact on the doctor-patient relationship and on the delivery of health services.
